

I'm the fairest
of them All.

When you use Crystal Meth, aka Tina, what you see in the mirror may not be what others see. Then again, maybe you're going for that "hopped-up-sunken-eyed-emaciated-pale-faced-rotted-teeth-I'm-the-Devil" look. For more information about the effects and dangers of Crystal Meth, visit nothingpretty.org or call the statewide treatment hotline 888-736-0253.

There's **Nothing** Pretty about Tina.
